Computer Science student graduating August 2026 with experience building educational technology tools, enterprise software systems, and AI-powered applications. Proficient in C#, C++, and Java with strong object-oriented design fundamentals. Proven ability to write clean, maintainable code and collaborate across cross-functional teams to deliver software that serves real users.

TECHNICAL SKILLS

Programming Languages:	C#, C++, Java, Python, JavaScript, HTML, CSS, React
Frameworks & Technologies:	React.js, Node.js, Next.js, Flutter, Android Studio, WordPress, Bootstrap
Concepts:	OOP Principles, Distributed Systems, RESTful APIs, Agile Methodologies, CI/CD
Big Data & Analytics:	MySQL, Apache Hadoop, Hive, Pig, Power BI
Developer Tools:	Visual Studio Code, Git, Microsoft Azure, Google Cloud Platform, Eclipse, Postman

EDUCATION

Bachelor Of Computer Science (Honours), Conestoga College, Waterloo, **September 2022 - August 2026**
ON

- Available for full-time roles starting August 2026

PROFESSIONAL EXPERIENCE

Web and Tech Integration Intern (Volunteer), Olive Branch Mentorship Inc., **May 2025 - Present**
Cambridge, ON

- Developed and implemented web features using front and back-end technologies to enhance site performance and improve user experience.
- Integrated 5+ third-party APIs and optimized backend, enhancing data synchronization efficiency and user response time.

Open Education Tech Project Assistant, Conestoga College, Waterloo, ON **January 2025 - Present**

- Developed and published 5+ Open Educational Resources using HTML, CSS, and open publishing tools (Pressbooks, H5P, WordPress), improving usability for 1,000+ students.
- Collaborated with subject matter experts and cross-functional teams to deliver educational software projects on time, ensuring clean and maintainable content architecture.
- Reviewed and optimized digital content, increasing student engagement by 20% through interactive learning activities.

Techno-functional Freight Associate, The Home Depot, Brampton, ON **January 2023 - Present**

- Streamlined inventory management using internal tooling, boosting order processing efficiency by 20%.
- Led daily operations and mentored new associates on troubleshooting workflows, ensuring smooth team performance.

PROJECT EXPERIENCE

MediNet+ , GitHub	2024
• Overview: Led development of a hospital management system to improve administrative and patient care workflows using a real-time distributed client-server architecture. • Technology Stack: C# for backend, socket programming for real-time client-server communication, multi-user GUI, automated testing with Selenium (unit, integration, usability). • Outcome: Reduced testing time by 20% and streamlined hospital management processes, improving efficiency in record management and scheduling.	
DineEase , GitHub	2024
• Overview: Developed a customer-centric omnichannel ordering system with clean OOP design, database integration, and maintainable code across a multi-tier C# application. • Technology Stack: C# with Guna UI, HTML/CSS for web components, MySQL database integration, multiple payment gateway integrations; unit and integration testing. • Outcome: Reduced order processing time by 30% and improved customer satisfaction through reliable payment processing and order tracking.	
MediTwin , GitHub	2025
• Overview: Designed an AI-driven health companion app delivering personalized medication insights by analyzing user health data and prescriptions. • Technology Stack: Next.js and React for frontend, Flask for backend, Google Gemini API and OpenFDA API for real-time AI analysis. • Outcome: Reduced manual drug research time by 40% through automated interaction checks and personalized AI-generated reports.	

EXTRACURRICULAR ACTIVITIES

President - IT Club , Conestoga College	March 2025 - Present
• Led 10+ technical workshops, hackathons, and networking events empowering 100+ students with in-demand tech skills and industry connections while fostering collaboration and innovation.	
Director - Student Success Team , HackTheBrain	March 2025 - Present
• Led participant operations for a 250+ attendee AI hackathon, managing onboarding, logistics, and support to ensure a seamless and inclusive event experience.
